Cabinets

Solutions for every environment

HAZARDOUS CABINETS

COSHH Regulations demand the safe storage of hazardous items. These Cabinets isolate flammable materials and vapours from potential sources of ignition and clearly identify hazardous products in case of a fire.

- Robust durable construction
- Reinforced doors
- Removable 75mm sealed sump base tray
- Supplied with adjustable 85kg shelves
- All units comply with HFL/LPG Reg 1972 Sec 5. HSE The Storage of Flammable Containers HS(G)51
- Working towards many of the principals outlined in DSEAR Regs. 2002
- High visibility 270 degree labelling conforming to BS5609

MEDICAL CABINETS

Under the Health and Safety Regulations 1981, workplaces must have first aid provision. To satisfy a wide range of first aid equipment we have designed an attractive and highly visible range of Probe Cabinets for your working environment.

INTERNAL COMPARTMENTS

We reserve the right to alter designs and specification of products illustrated in this brochure without prior consent.

All sizes are nominal. All information is correct at time of going to print.

ACID/ALKALINE CABINETS

The storage of caustic materials needs to be controlled. These Cabinets will allow the safe storage of acids and alkalis in a range of highly visible Probe Cabinets.

- Durable epoxy polyester coating giving a surface resistant to most acids and alkalis
- Strong steel construction
- Two point locking on all two door Cabinets
- Removable 75mm sealed sump base tray
- High visibility 270 degree labelling complying to BS5499-1
- All Cabinets feature adjustable shelves
